Lashing system STANDARD 75mm STF 350 daN LC 5000daN

Product information

Forankra
Secures everything in transit™

Standard 75mm is a lashing suitable for the really exceptional loads. The machine lashings are mainly used to secure trailers or contract machinery, both on land and sea. The ratchet has long handle to increase the tensioning. - STH 50 daN (Standard Hand Force).
