

Weld-On Lashing Point RUD LPW

Product information

The lashing point for all situations.

- Lift bail can be pivoted through 180°.
- LC possible up to 90° in load ring plane.
- Clear indication of the lashing capacity in daN.
- Functionally optimised shape of the suspension ring for better support at side loading and protection of the clamping spring.
- Prepared for easy weld-on.
- Phosphated surface.
- The clamping spring achieves noise reduction and keeps the suspension ring in the desired position.
- Distance knobs on the weld-on block for the necessary distance for root welding.

Note: LPW-U code with spring, LPW code without spring.

Safety factor: 2:1
