

Ferrule GERRO™ COMBI GC-E Talurit®

Product information

These ferrules are swaged over two rope parts to form an eye. This assembly is perfect for multiple different ways of anchoring. To avoid wear and tear a thimble can be incorporated in the eye.

The E ferrule is swaged in press dies with rounded pocked ends.

Material: Aluminium

Part code	Code	Ferrule size mm mm	Max load kN
120101600280	GC16-E	16	30
120101800280	GC18-E	18	35
