Mechanical Jacks JJ

Product information

Mechanical Jack JJ, resistant to heavy duty working conditions like shipbuilding, bridge works and civil construction works. The jacks apply great forces and good engagement. The ratchet handle is designed for engagement both wheel and plunger. All jacks have an excellent durability and stability.

- Made of cast iron; resistant to continuous heavy operating conditions
- Unique ratchet handle for engagement both wheel and plunger
- Self-locking; for safe working
- Robust; can be used close to welding works and under water
- Low maintenance
- Almost all jacks have a handle

Standard supplied with:

- Handle bar
