

Round Sling EXTREEMA® XS

Product information

The extra thin WLL 3T, WLL 5T & WLL 10T EXTREEMA® XS round slings make it possible to lift heavy payloads, when you have to work with limited spaces.

With an extremely small diameter and a D:d ratio of 1:1 (recommended 1:1,5 for longer life cycle), it also enables you to work with regular classic model bow shackles instead of more expensive wide body shackles and lift on the pin. The slings are available in various colors and very short effective working lengths (0,3 m-20 m). Moreover, it is possible to equip the sling with different kinds of protections.

By making use of the WLL 3T (6T basket), WLL 5T (10T basket) and WLL 10T (20T basket) EXTREEMA® slings, you can discard all polyester slings from 1T up to 20T. This saves you costs in storage, logistics, purchasing and disposal, while supplying your employees with a more efficient and faster workflow.

Features

- Saving costs
- D:d ratio of 1:1
- Environmentally friendly
- Light in weight
- Flexible
- Less storage
- Long life cycle
- Access to limited lifting space
- Safer lifting operations
- Improving workflow

Material: HMPE

Marking: According to standard, CE-marked

Temperature range: -50°C up to +70°C

Standard: EN 1492-2

except material

Safety factor: 7:1
