

# Steel Ecolash buckle

Product information

The one way buckle A-lock is used together with 50mm polyester webbings for one way securing. The One Way Lashing System offers a high and yet economic method of cargo securing when conventional lashing systems cannot be retrieved at destination for re-use. In the LC column the lashing capacity is indicated for the combination webbing and buckle.

**Material:** Steel  
**Finish:** Yellow, zinc platek
