

Starcon Ring Clutch

Product information

The Starcon ring clutch is a specially designed component with a bolt-shaped ring that grips the hole of the Starcon STA anchor. It enables quick and secure mounting of the ring coupling to the STA anchors by means of a locking bolt that mechanically locks to the anchor.

The ring coupling can be easily connected to a sling or hook, making lifting both fast and safe. It is ideal for use with lifting equipment and cranes, ensuring efficient and reliable handling of concrete elements.

Areas of application: The Starcon ring clutch is used for lifting Starcon STA anchors

Advantages: Ensures handling of concrete elements.

Enables safe lifting in all directions.

Quick and easy installation.

Load group: 2.5t – 10t

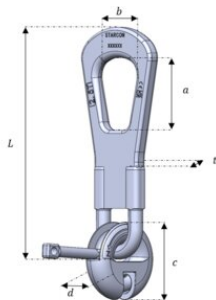

Technical information: CE marking according to MD 2006/42 EF

Starcon product is designed according to EN13155-2009 and follows the guidelines of VDI/BV-BS 6205 and DS/CEN/TR 15728. [... Read more](#)

Marking: CE-marked
