

## Master Link Assembly MC1 POWERTEX

### Product information

The POWERTEX Master Link assembly MC1 is part of the range of Powertex G10 Lifting Sling Chain Components. The MC1 assembly is made up of a master link and an integrated connector with a shortening hook. This convenient combination allows operators to easily adjust the assembly length according to the specific application requirements. Due to its integrated components, this part is more cost-efficient, user-friendly, and lightweight than traditional assemblies. The MC-1 is to be used for one leg chain sling assemblies.

Available for 6 mm up to 16 mm chain and from WLL 1,4t up to WLL 10t.  
All models have a welded master link and forged connector.

Also available as MC2 for two-legged assemblies and MC4 for four-legged assemblies.

#### **Powertex G10 Range benefits:**

- 25% higher capacity compared to traditional Grade 8 components
- All POWERTEX G10 components are powder painted in luminous red
- Multi-functional master links and components are included in the range to allow quick and cost-effective assembly of chain slings
- The components meet EN 1677 part 1/2/3/4 +25% WLL
- Each forged component is crack detection tested, and samples are proof load tested.
- Each component is type tested in the factory and fatigue rated to 20,000 cycles at 1.5 times the WLL
- Full traceability through a batch number
- Replacement spare parts available
- All components are chromium 6 free
- POWERTEX 2.2 certificate enclosed with each box of components
- The components may also be used with Grade 8 chain to EN 818-2. In such a case, the chain sling needs to be rated as Grade 8 in accordance with EN 818-4.

**Marking:** According to standard

**Standard:** AS 3776

**Standard:** EN 1677-4

(+25% WLL)

**Safety factor:** 4:1

**Класс:** 10
