

## Lashing system ERGO 50mm STF 500 daN LC 2500daN

## **Product information**

Lashing system LC 2500 daN Ergo has an ergonomically designed tensioner where the longer handle has reversed tension to create a natural movement, which also results in 30% higher tensioning force compared to conventional lashings. By using Ergo the number of topover lashings (friction lashings) can be reduced when securing the goods. Ergo is a price worthy lashing commonly used by transport companies and suitable for all kinds of cargo carriers. Ergo lashings has a higher lashing capacity (LC) than regular Standard lashing. All components are tested and of very high quality to ensure a long durability and high safety. The strap is made of a high strength polyester webbing, which makes the lashing very flexible and durable. - Standard Tension Force (STF) for Ergo is 500 daN at SHF 50 Hand Force.

Marking: According to standard

Standard: EN 12195-2
