

## Spreader 6650-TL ALU / adjustable

---

### Product information

### CERTEX

The spreaders have a high point of oscillation which results in good balance. Adjustable to adapt to goods with different lengths between the connection points and a compact size for transport. Each spreader is delivered complete with 2-leg sling (wire rope, chain and synthetic) and shackles. The spreader can be equipped with other accessories such as hooks on request.

**Design:** Welded aluminum construction that provides low weight.

**Proof:** 2 x WLL according to EN 131 55.
