

Lifting Eye Theipa Point - F

Product information

The THEIPA Point-F internal thread attachment swivel is a ball-bearing lifting attachment point for industrial load handling. It is used where a swivel connection with internal thread is required, helping maintain correct load alignment while reducing the risk of link kinking through its crimped link design.

Best used for:

- Swiveling lifting points with internal thread connection.
- Applications requiring galvanized corrosion protection.

Product benefits:

- Ball bearing supports controlled swivel movement under load.
- Crimped link helps prevent kinking during handling.
- Galvanized coating provides corrosion protection.
- Multiple thread sizes support different load requirements.
- RFID chip option supports digital identification.

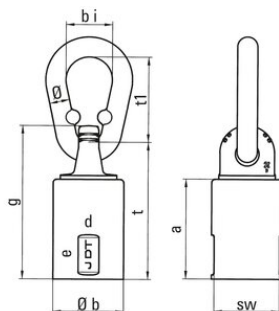

Different threaded versions and lengths can be supplied on request [... Read more](#)

Marking: CE-marked, UKCA-marked

Safety factor: 4:1
