

Starcon

– Transport and fastening systems for the concrete industry

CERTEX is one of the leading suppliers of lifting parts for the concrete industry when it comes to lifting, transport and fittings for concrete pipes, concrete elements etc.

We offer the full lines of the systems below:

Starcon systems:

- Anchors
- 2-hole anchors
- Lifting eyes
- Formers
- Transport anchors with thread
- Anchor rails
- Plastic components
- Wire boxes

Starcon is used by:

- Concrete manufacturers
- Carriers
- Crane companies
- Engineering companies

Starcon systems ensure:

- Reduced number of on-the-job injuries
- Fewer defective products
- Quality
- Strength
- Easy to use
- Effectiveness
- Certification/control
- Current standards

Consulting and calculation:

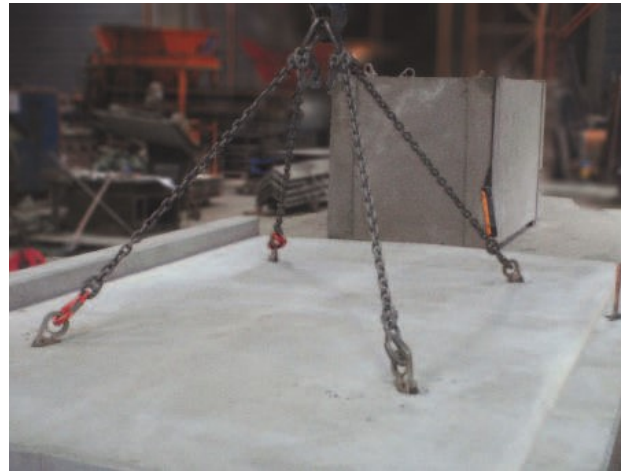

- In-house technical branch including in-house engineers
- Expert knowledge and consulting

Starcon systems for:

- Concrete panels
- Concrete pipes
- Floor components
- Concrete pillars
- Concrete balconies

STARCON

Concrete Handling System

CERTEX

Certified by DNV:

ISO 9001 = Quality
ISO 14001 = Environment
OHSAS 18001 = Working Environment

STARCON

Concrete Handling System

Starcon is an internationally recognised brand in the supply of lifting system to the pre-cast industry.

TECHNICAL SOLUTION CENTER

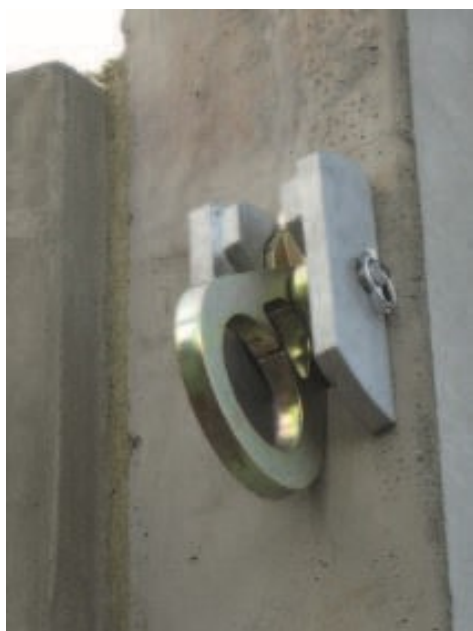

Experience

With more than 40 years experience in development, manufacturing and activities directly related to lifting and handling system you can safely choose CERTEX Danmark as the preferred collaborator.

Starcon Anchor Systems

Threaded Anchor Systems

Starcon Lifting Eye with standard Coupling Link

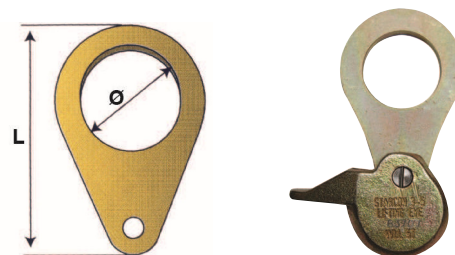

With standard coupling link

Starcon lifting eyes are made of a special cast steel alloy which after hardening obtains an exceptionally high strength. The strength of the material exceeds a safety factor of 5.
