Chain Sling Powertex 4-leg with Masterlink MC4 and Latch Hooks, Grade 10

Інформація про товар

The Chain Sling Powertex 4-leg MC-4 with latch hooks is a four-leg lifting assembly for general industrial use. It features an MC-4 master link with an integrated shortening function, reducing the number of components and creating a more compact, manageable lifting setup.

It is designed for controlled lifting where fast connection, quick length adjustment, and predictable performance are required.

The assembly includes the MC-4 master link, Grade 10 chain, latch hooks, and a marking plate with WLL information, providing a complete, ready-to-use configuration.

Best used for:

- Lifting loads requiring multiple lifting points for stability
- Applications where a compact setup with integrated shortening is preferred
- Repetitive lifting where fast and efficient hook connection improves handling speed

Product benefits

- MC-4 master link integrates shortening functions on all legs, reducing the number of components and simplifying assembly configuration
- Integrated shortening allows quick length adjustment without adding separate shortening hooks
- Compact design supports a clearer overview during use and inspection, helping reduce handling errors
- Latch hook enables fast and secure attachment, reducing connection time during repetitive lifting operations
- Grade 10 chain provides higher capacity compared to Grade 8, enabling compact setups without increasing chain diameter
